## NEKOTECH GLOBAL FUTURE LEADERS: US-AFRICA PEACE AND INTEGRITY ACADEMY

The US-Africa Peace and Integrity Academy was birthed after the US-Africa Leaders Summit held in Washington DC, USA in August 2014.

In line with the United Nation's International Youth Day 2015 theme of "Youth Civic Engagement," Nekotech Center has engaged the youth of Ghana to equip them with peace building and conflict resolution knowledge to enable a fruitful youth engagement for peace and development. The engagement and participation of the youth is essential to achieve sustainable human development. Yet often, the opportunities for youth to engage politically, economically and socially are low or non-existent, especially in the peace-building process.

Nekotech believes that it will take 'all hands on deck' for the world to achieve the sustainable development goals post 2015. The Center developed the Global Future Leaders Initiative and chose to focus on Peace and Integrity - as essential to leaders of tomorrow for sustainable development.

Though Africa is endowed with mineral resources, the high rates of corruption has created wars, confusion and extreme poverty for many. By

engaging and equipping the next generation of leaders now with peace-building tools with a focus on integrity, we trust it will help diminish corruption and create a new class of leaders with zero tolerance to corruption.

## The Pilot Project:

The Global Future Leaders' US-AFRICA Peace and Integrity Academy Pilot Project will run from September 2015 to September 2018. Each year, Nekotech will assess and monitor the Academy closely, and evaluate each program and use the best practices and lessons learned to continue to improve on the performance of Academy – implementing continuous improvement – process control techniques to create an exceptional Academy. At the end of the pilot, Nekotech will share its findings with stakeholders and implement the best practices in the establishment of the full Academy.

Students will be trained to write their own Academy constitution. They will be exposed to Parliamentary and Congressional proceedings to become familiar with the elements of nation building. They will be exposed to ex-Presidents and sitting Presidents and will be set up in mentoring relationships with participating business and civic leaders both in the USA and Africa.

At the Nekotech Center, the students will receive the foundational training on the Seven Realms of Peace and Integrity Practicals Boot Camp to nurture and establish the seeds of peace and integrity within them.

In partnership with the renowned Kofi Annan International Peace Keeping Training Center, Channels of Blessings in Ghana, the AU - Diasporan African Forum, the Meditation Peace Museum and the Peace Alliance of Washington DC, the students will be taught various aspects

H.E. Rev. Dr. Ocansey (seated far left) gave a speech on “Moving from War Chests to Peace Chests” at the Ministry of Youth and Sports to the UK Cadet visiting Ghana. Seated in the middle is the Hon. Minister for Youth and Sports, Dr. Alhaji Mustapha Ahmed (MP)

of Ambassadorial and professional peace building and conflict resolution techniques in Ghana and the USA. In partnership with the Friendship Ambassadors Foundation, the students will participate in the UN Youth Assembly. This will comprise 3 days of activities with youth from all over the world. This will enable them to build friendships with youth of other nations to provide a solid foundation for a future of peace.

The Academy will offer a lifetime membership, renewable annually with a Global Youth Summit. This will enable its graduates and alumni to network and go on to deepen their knowledge and possibly have opportunities for internships and future professions with global peace keeping organisations. Each student will be encouraged to participate in both the US/DC and UN/NYC Peace Programs.

Youth have the great potential to contribute immensely to the global peace process and to start a peer peace-building revolution for a safe and more secure future for all. Youth must be engaged in the peace building of their future!

## Expected Outcomes:

- The youth will have key knowledge for peace building and conflict resolution in a professional capacity.
- They will be able to teach other youth and pass on the knowledge.
- They will help in spreading the word about the need of engaging youth in positive opportunities for peace building and integrity in all dealings.
- Lasting bonds of peace and unprecedented exposure to global leaders at the highest levels.
- Participants will have new peace-building friends to create a community of peace as a priority.
- Each youth would have the opportunity to impact on the global 2030 sustainable development goals.

Each participant will have knowledge to practice the 7 Realms of Peace as authored by HE Rev. Dr. Ocansey.

- Peace with God
- Peace with self
- Peace with family
- Peace with work/school/vocation
- Peace within community
- Peace with your nation
- Peace with the global village

My name is Nyarko Vincent Kwabena and I am 22 years. I am pursuing a degree course in Psychology and Religions at the University of Ghana, Legon and in my third year.

Doing research is something I like, both on academics and social issues. It is often said, there is no way to peace, peace is the way. My aim of joining this academy is to be well trained on and for peace.

So with the help of my knowledgeable mates and friends, who are in support for peace, we would set up a 'for peace campaign club' on campus and educate students on issues relating to peace and integrity.

Some leadership heroes I would like to emulate are Malcom X, originally born as Malcom Little and Osagefo Dr Kwame Nkrumah.

My name is Kingsley Amoaning-Yankson. I am a vibrant 21 year old student of the prestigious Ashesi University College. I am a sophomore studying the science of computers. I am interested in sports and photography, yet my deepest affiliation is towards helping orphans and the less fortunate.

I hope to broaden my scope on the issue of peace and how it can be impacted to each member of society so as to help bring it to our country, Africa and the world on a whole.

The knowledge I hope to get from this program will help me relate to peers and help them come to peace with themselves and society in order to build their integrity for the betterment of themselves and the nation. Lee Kuan Yew is my personal hero.
